

May 18, 2021

Dear Representative,

The mob storming of the Capitol on January 6, 2021 was an unprecedented attack on our democracy and on our system of constitutional government. Accountability and transparency are demanded here.

The American people need to know the full story of the January 6 attack on the Capitol, including the circumstances surrounding the attack and the steps needed to ensure that this does not happen again.

Democracy 21 strongly supports the bipartisan legislation sponsored by Representatives Bennie Thompson (D-MS) and John Katko (R-NY) to create an independent bipartisan commission to investigate the January 6 attack.

We urge all Representatives to vote for the Thompson-Katko independent January 6 commission when the legislation comes to the House floor this week.

Fred Wertheimer
President, Democracy 21
